AS the state is divided into three distinctive physical regions, the Western, the Piedmont, and the Coastal Plain, so do its occupations tend to group themselves into three areas: in the West, forestry; in the Piedmont, industries; in the Coastal Plain, agriculture. There is overlapping, of course; but one thinks of these areas first.

Our theme in the yearbook is the State and the college. We have tried to locate the schools in the geographical area which they represent in industry and in the life of the State. And

we have divided the school's activities into the three seasons: Fall, and its riot of color in the mountains; Winter, and the hum of industry in the Piedmont; Spring, and the blossoming of agriculture in the Coastal Plain.

RALEIGH, NORTH CAROLINA

As you travel through the beautiful Tar Heel State, whether you are in Murphy, Charlotte, Greensboro, Raleigh, or Wilmington or any other city, however large or small, there is one fact that you cannot help noticing: the influence of North Carolina State College. It is felt in some respect by every person in North Carolina, and that is true whether the person is a forester in the Mountains, an industrial

worker in the Piedmont, or a farmer in the Coastal Plains. And it is true because in the broadest sense, the campus of North Carolina State College extends through its services, to the boundaries of the state and beyond into the whole southern region. But the focal center of these widespread activities is the college campus in Raleigh, the Capitol City.

The Western part of our great state is richly endowed with the treasures of

mother nature. Among her wonderful gifts are the endless forests, which range from the tall loblolly pine to the small dogwood, each playing a major part in the growth of industry in the western part of our state. The old folks still produce the homespun, the counterpanes and other handicrafts; but the youth prefer to work in such modern plants as that of the big Enka Rayon Mill

near Asheville, the paper plants at Canton and the new mill at Pisgah Forest, where the Ecusta Paper Corporation produces the paper for cigarettes made in the Piedmont from tobacco grown in the Coastal Plain. This progress is due, in part, to the technological help, in the way of trained foresters in forestry research, which has been supplied by North Carolina State College.

# *We dedicate with sincerity*

this, the 1956 AGROMECK, to express our great appreciation and heart felt gratitude to you, Everett N. Case. We congratulate you on raising the esteem and honor of State College by producing basketball teams of the highest ability and integrity. Due to your endless toil as coach, North Carolina State College is now honored all over the world.

EVERETT N. CASE

# SCHOOL OF FORESTRY

The growing demand for forest products, coupled with the progressive development of the forests, has brought a rapid increase in the demands for trained foresters. Forests are one of the most important and fundamental resources of the Southeast. Wood products industries rank second to textiles as a source of employment in manufacturing.

The School of Forestry offers undergraduate and graduate instruction in the fields of forest management, wood technology, pulp technology, and lumber products merchandising.

## *Xi Sigma Pi*

DONALD W. HORTON  
*Forester*

Xi Sigma Pi is a national forestry honor fraternity whose purpose is the recognition and promotion of leadership, scholarship, and interest in the profession of forestry. Each year, the organization honors the outstanding freshman and senior in the School of Forestry. The fraternity sponsors annual public lectures by nationally known individuals working in forestry or in allied professions.

# SCHOOL OF EDUCATION

The School of Education provides the professional pre-employment training required for certification teachers of Mathematics and Science, Vocational Agriculture, Industrial Arts, and Industrial Education. The curriculum in each of these departments includes courses designed to aid prospective teachers in acquiring an understanding of high school pupils and in selecting and using acceptable teaching methods. The School also provides under-graduate training for recreation leaders in industrial and rural areas.

## *Kappa Phi Kappa*

Kappa Phi Kappa is a national honorary and professional education fraternity based on the broad objective of increasing the efficacy of the profession as an instrument of social betterment. Kappa Phi Kappa was organized to recognize those

characteristics of the individual teacher deemed fundamental to the successful promotion of the cause of education, thereby working towards a higher standard of service offered to humanity by the profession.

# INTERFRATERNITY COUNCIL

The Interfraternity Council was organized in the Spring of 1931 through the efforts of the College Administration and the fraternity leaders. The purpose of the Council is "to advance the interests of North Carolina State College; to promote the general interests and welfare of the associated fraternities as a body; and to insure co-operation between them in their relations with the faculty, student body, and the public in general." The Council is composed of two representatives from each chapter, elected by the chapter.

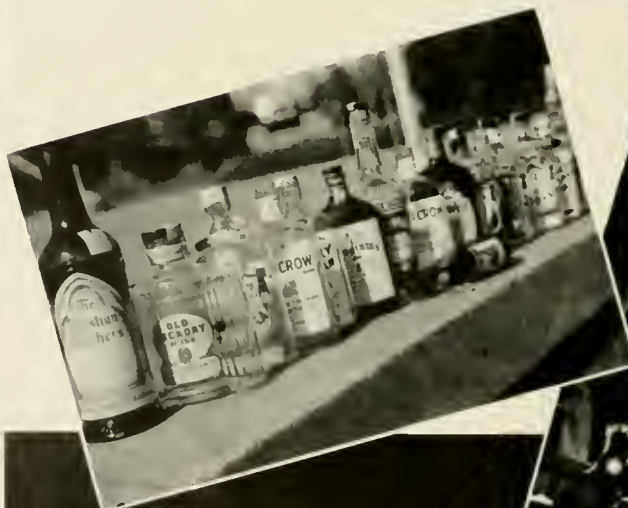

As the social feature of the college year, the Council sponsors two dances—the Pledge Dance in the fall semester and Spring Finals

Alpha Gamma Rho was founded in 1908 at Ohio State. Its purpose is to develop the best social, mental, moral, and physical qualities in each brother, and to promote a wider acquaintance and a broader outlook on the part of agricultural men through fellowship in a national organization. There are now 31 active chapters.

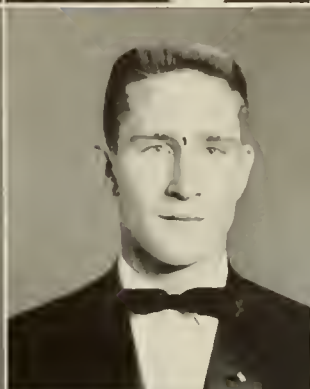

Nu Chapter, before becoming national in 1919, was the local fraternity, Theta Beta. One of the highest aims of Nu Chapter is outstanding scholarship, and all members are expected to develop a high standing. Nu Chapter has won six times a plaque awarded by the national organization for the highest scholastic average. The chapter also has won the IFC Scholarship Cup eight times in the fifteen years that it has been awarded.

FarmHouse is a national, non-Greek letter, social fraternity. The first chapter was established in 1905 at the University of Missouri. Seven men conceived the idea of FarmHouse at Missouri, having in mind the development of a social fraternity which would maintain high morals, develop outstanding leadership qualities, strive for high scholastic achievements and provide a home for worthy agricultural students while in college. With these definite objectives to reach the motto, "Builder of Men," was adopted for the fraternity.

The national scope of FarmHouse now includes 14 active chapters. All of these groups have continued to carry out the high ideals set forth by the mother chapter. Each year almost every FarmHouse ranks first in scholarship among the other fraternities on their respective campuses.

The North Carolina FarmHouse Club was formally installed on May 15, 1951, and received its charter as the thirteenth chapter of FarmHouse Fraternity. Since its beginning on the State College campus in 1952 the organization has gained prestige through demonstrated ability in scholarship, leadership, intramurals and joint fraternity functions.

The Kappa Alpha Order was founded at Washington and Lee University in 1865 to perpetuate the Southern ideal of gentlemanly character typified by Robert E. Lee, our spiritual founder. The ultimate aim of the Order is to inspire each brother to achieve a noble character and an integrity of principle.

At present there are 75 chapters within the Order. Alpha Omega Chapter, chartered at North Carolina State College in 1903, is the third oldest fraternity on the campus. Each Spring our Southern heritage manifests itself in the Old South Ball, with chapters of the "Big Four" participating in the South's most famous ball.

Kappa Sigma originated at the University of Bologna in 1100 and soon spread to many of the larger universities of Europe. On December 10, 1869, the "Five Friends and Brothers" founded the first American Chapter at the University of Virginia. Kappa Sigma has grown until it now has at least one chapter in every state. There are 100,000 living alumni of the 126 chapters.

Beta Upsilon Chapter was founded on the State College campus in 1902 and since then has initiated over 100 men.

Founded at Boston University in 1909, Lambda Chi Alpha Fraternity has grown to be the largest national fraternity, with 117 chapters located at prominent colleges in the United States and Canada. The "Cross and Crescent," the fraternity magazine, is published seven times annually. Other Lambda Chi Alpha chapters in the State are located at Duke, Wake Forest, Carolina and High Point.

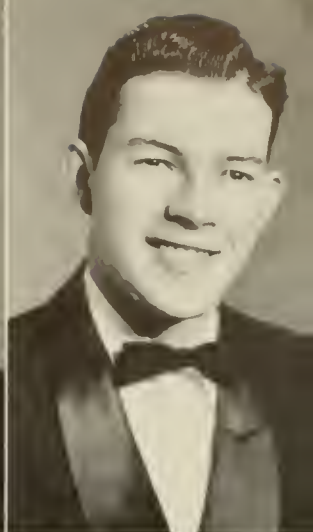

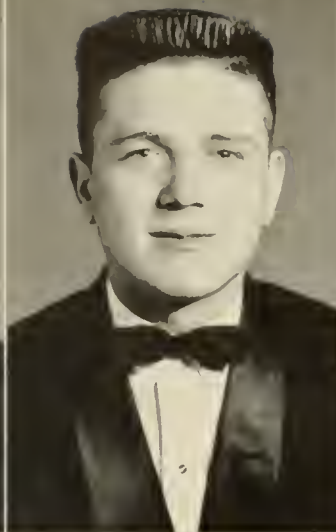

Gamma Upsilon Chapter was founded on the State College campus in 1924 and has initiated 416 men since that time. The local chapter sponsors the annual fraternity bridge tournament, a Christmas party and an Easter Egg Hunt for underprivileged children.

Soon after the end of World War II a new fraternity, Phi Epsilon Tau, was formed on the State College campus. The principles it stood for were simple and unique. They were fraternity, liberalism, and nonsectarianism. Bound together by these interlocking maxims the fraternity grew in number and in spirit.

In June of 1949 the local chapter of Phi Epsilon Tau was formally chartered by the national organization of Phi Epsilon Pi Fraternity. In March of 1953 the group, finding their physical plant no longer adequate, moved to their present headquarters on Hawthorne Road.

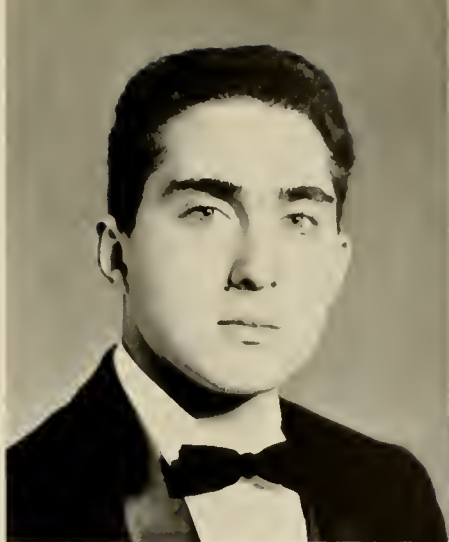

The highlight of the year's social activity is the annual Phi Ep week end at which new members are initiated and new officers are installed.

Phi Kappa Tau was founded in 1906 by four outstanding students of Miami University, Oxford, Ohio, to break up the monopoly on student elections which were held by the fraternity unions. The membership of Phi Kappa Tau consists of 65 active chapters, and the fraternity is proud of its active alumni chapters. "The Laurel," the fraternity magazine, is published quarterly.

Chi Chapter was chartered at State College in 1923. Since its organization the chapter has been outstanding in scholarship and athletics and has won the IFC Scholarship Cup for four years. Chi Chapter now ranks as the top chapter of Phi Kappa Tau.

During the early spring of 1868 the friendship of six students at the University of Virginia grew into Pi Kappa Alpha. From this beginning 82 years ago the fraternity has branched out to form 109 chapters. Alpha Epsilon Chapter at State College was given its charter in October, 1904. This year Alpha Epsilon of Pi Kappa Alpha celebrated its Golden Anniversary and presented the forty-seventh annual PiKA Ball.

Pi Kappa Phi was founded on December 10, 1904 at the College of Charleston, Charleston, South Carolina. The founders, seven men who pledged themselves to a lasting bond of friendship, had no idea of the vast organization that would flower from the seed they had planted. With the definite purpose of extending the influence of the organization, the incorporation as a national fraternity took place in 1907. The purpose of the fraternity is to promote fellowship and mutual trust among its members; to uphold the ideals and traditions of the colleges where its chapters are located; to encourage excellence in scholarship; and to inculcate in its members the highest ideals of Christian manhood and good fellowship.

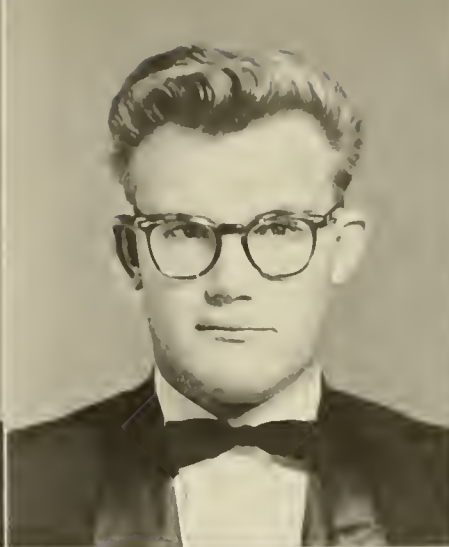

Tau Chapter was established at State College in 1920, and since that time has been active in the fraternity family. For many years Pi Kappa Phi has sponsored an annual interfraternity sing to promote cultural interest on the campus. To its members, Pi Kappa Phi is more than just three Greek letters; it is their college home and the cornerstone of life-long friendships.

"There remaineth a lingering presence, the ghost of good fellowship rare." This line, from one of our often sung SAE songs, embodies the spirit of Alpha Chapter.

Founded at the University of Alabama in 1856, Sigma Alpha Epsilon was the first of the great line of Southern fraternities. Since that time it has gradually grown and expanded until today, with national offices housed in the beautiful Levere Memorial Temple at Evanston, Illinois, collegiate chapters represent SAE in 16 of the 48 states. Now the second largest national fraternity, Sigma Alpha Epsilon has always been a leader in the Greek world.

Alpha Chapter was established on the State College campus October 21, 1947, and during this brief eight-year span since its conception, has risen to take its rightful place on campus. Guided by high ideals and noble ambitions, it hopes to help prove the worthiness and value of fraternal living.

Sigma Alpha Mu was founded on Thanksgiving Eve, November 26, 1909, at the College of the City of New York. The eight founders pledged themselves to lasting friendship.

The object of the fraternity, as expressed in its constitution, is "to foster and maintain among its sons a spirit of mutual moral aid and support; to instill and maintain in the hearts of its sons love for and loyalty to Alma Mater and its ideals; to inculcate among its sons such ideals as will result in actions worthy of the highest precepts of true manhood, democracy, and humanity."

Sigma Omega Chapter is the outgrowth of a local fraternity, Theta Phi, which had its beginning in 1929. From its inauguration, the fraternity has always maintained high standards of scholarship and conduct. Sigma Omega Chapter is the owner of its own home at 301 East Park Drive.

Sigma Chi Fraternity, the nineteenth college fraternity to be founded, this year celebrates the centennial of its founding. Established on June 28, 1855, at Miami University in Oxford, Ohio, Sigma Chi now has 124 active chapters throughout the United States and Canada.

Delta Epsilon Chapter at North Carolina State was installed on May 15, 1943, after two years' existence as a local fraternity known as Chi Sigma. Sigma Chi is located in its own chapter house at 2511 Clark Avenue.

Sigma Chi always takes an active part in all campus activities. Among the many accomplishments of the fraternity are the winning of the athletic cup for five years straight and a singing group that is held in high esteem on the campus and in the City of Raleigh. A growing collection of all types of trophies may be seen at the fraternity house.

Sigma Nu was founded from the Legion of Honor, a secret society organized in 1868 at the Virginia Military Institute. The founders, moved by idealistic hopes, established a society which would inculcate honor and mutually benefit its members. Since its founding the fraternity has prospered, and at the present time there are 119 active chapters throughout the country.

The purpose of its founders was "to establish through the warm friendship of a group of congenial college men, on the foundation stone of honor, ideals of intellectual achievement, character, and social development, all to the end of becoming better men and better citizens."

Beta Tau Chapter was installed at State College in 1895, making it the oldest fraternity on the campus.

Sigma Phi Epsilon was founded on November 1, 1901 on the campus of Richmond College in Richmond, Virginia. In the 55 years since its founding Sigma Phi Epsilon has grown from a small group of 12 to a membership of over 43,000 brothers all over the world. Today there are Sig Ep chapters at nearly every important college and university in the United States. The Grand Secretary has his headquarters at the central office in Richmond, Virginia, where a complete office force is employed.

Beta Chapter at State College was given its charter in 1905, making it the fifteenth chapter. The present house, purchased in 1918 by the alumni, is located at 2512 Clark Avenue.

Sigma Pi was founded on February 26, 1897 at Vincennes University, Vincennes, Indiana. The purpose of its founders was to establish brotherhood and "to organize the most worthy activities, social, athletic, and scholarly, and to set a high standard of manliness and college loyalty." There are now 52 active chapters located throughout the nation.

Rho Chapter was established at State College on May 28, 1921. Making it one of the older fraternities on the campus. The chapter maintains its own home at 2513 Clark Avenue where its members enjoy some of the benefits of home life along with the advantages of brotherhood.

The event of the year is the Annual Founder's Day Banquet and Ball, in celebration of the founding of the fraternity. This is a gala week end to which all the active members, as well as the alumni, look forward.

Tau Kappa Epsilon was founded on January 10, 1899 at Illinois Wesleyan University, Bloomington, Illinois. The founders established a fraternity of men chosen "not for their wealth, rank, nor honors, but for their personal worth and character." The basic principles are charity, esteem and love. Tau Kappa Epsilon began its growth in the South on January 19, 1917 with the Beta Beta Chapter at State College. There are now 17 active chapters located in the south.

Theta Chi Fraternity was organized on April 10, 1865 at Norwich University, Norwich, Vermont. The second chapter was established at Massachusetts Institute of Technology on December 13, 1902. Since that time the fraternity has expanded until it is now one of the fastest growing fraternities in the nation, totaling 111 chapters at leading colleges and universities, including High Point, Lenoir Rhyne and the "Big Four" in North Carolina.

A colony was organized at State College on May 26, 1950. Two years later the colony met all the requirements for an active chapter and was installed as Delta Rho Chapter on May 11, 1952.

As our literary trip moves east, we come to the Piedmont region of our great state. Within this section lies the majority of the state's manufacturing concerns as well as the major portion of our population. Although the Piedmont lacks the spacious beauty of the mountains it is not lacking in beauty. Many colorful spots are there for the asking. Among these are the beautiful Duke

University Gardens, the Reynolds Estate in Winston-Salem and the rolling golf courses of Pinehurst, plus a host of other interesting sights. Situated within a 150 mile radius are Charlotte, Raleigh, Durham, and Greensboro, each playing a major role in the state's progress.

The School of Engineering of North Carolina State, through its various activity,

again plays a big hand in the manufacturing and research of the major industries in the state. Some of these are Cone Mills, Greensboro; R. J. Rey-

nolds Tobacco Company, Winston-Salem; Westinghouse, Raleigh and many more too numerous to list here. Together they make the

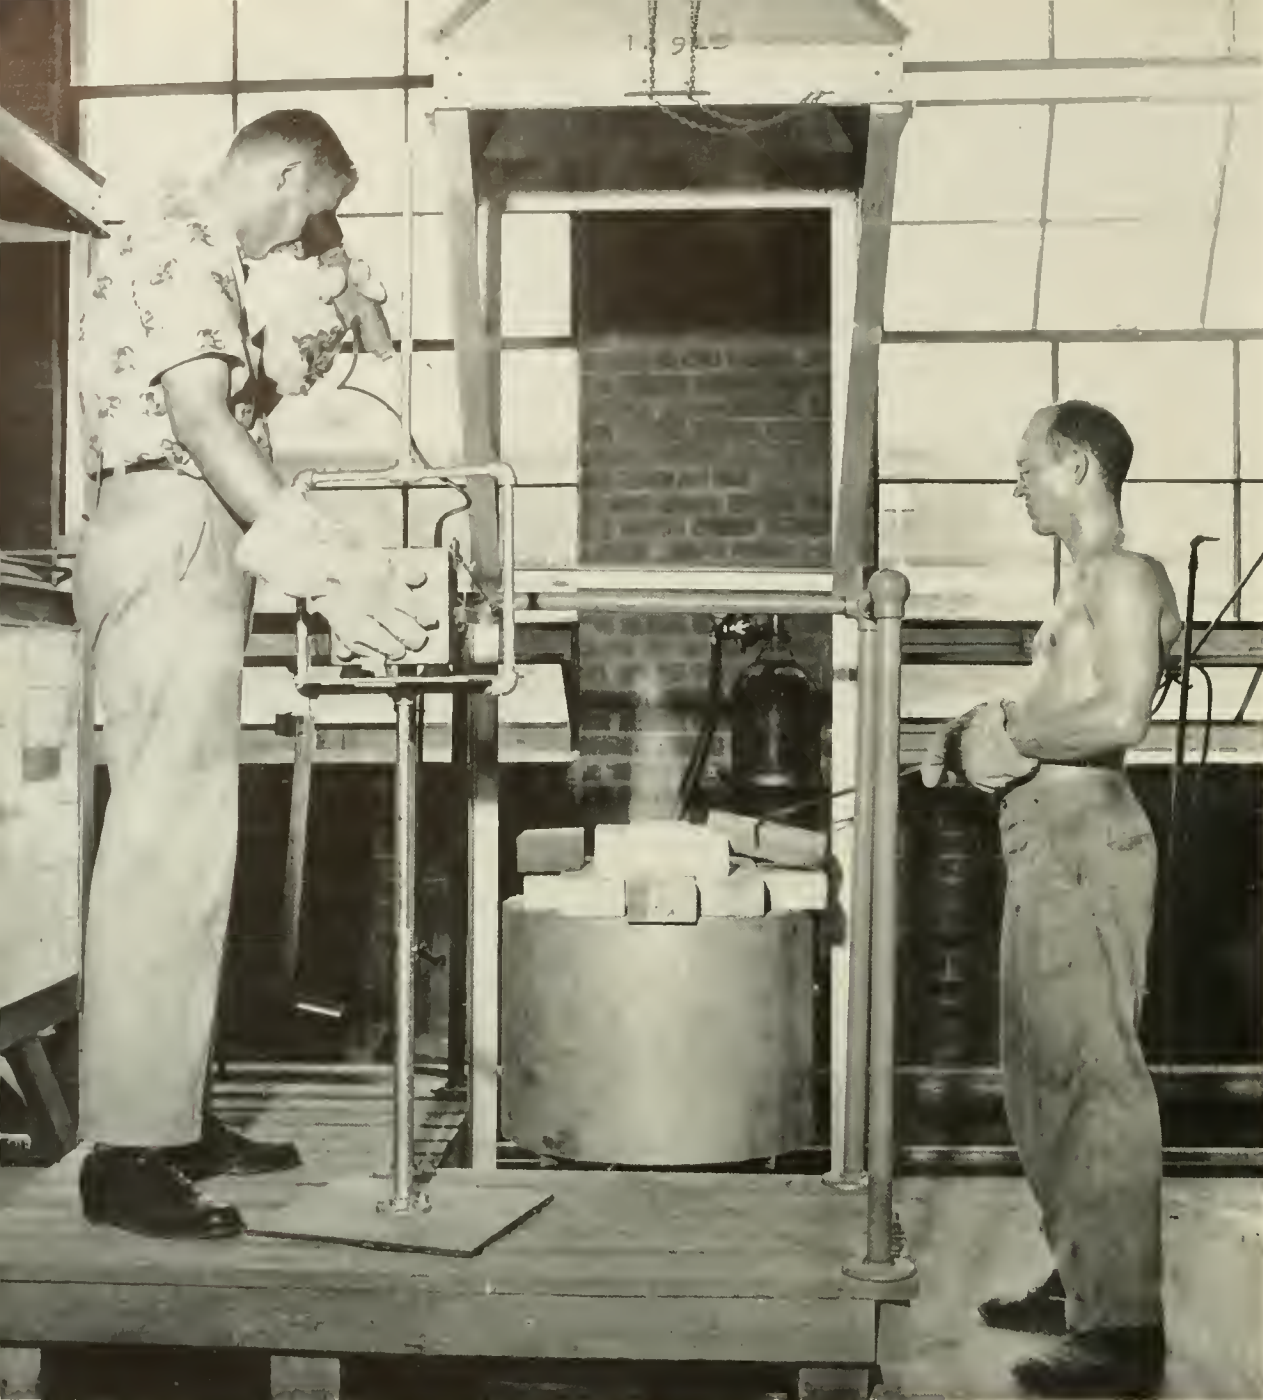

wealth which has been the basis of the burgeoning of North Carolina in comparison with her sister states to the south. Last year it pushed the value of its industrial products up above \$2,000,000,000.

Another important element in the state economy is the Tex-

tile Industry. What Rockefeller is to oil so Cannon of Kannapolis is to Textiles, the largest producer of towels in the world. Textile graduates from State, receive the top consideration from every textile concern in the nation; the school is valued as number one in the United States.

Keeping the Home Fires Burning

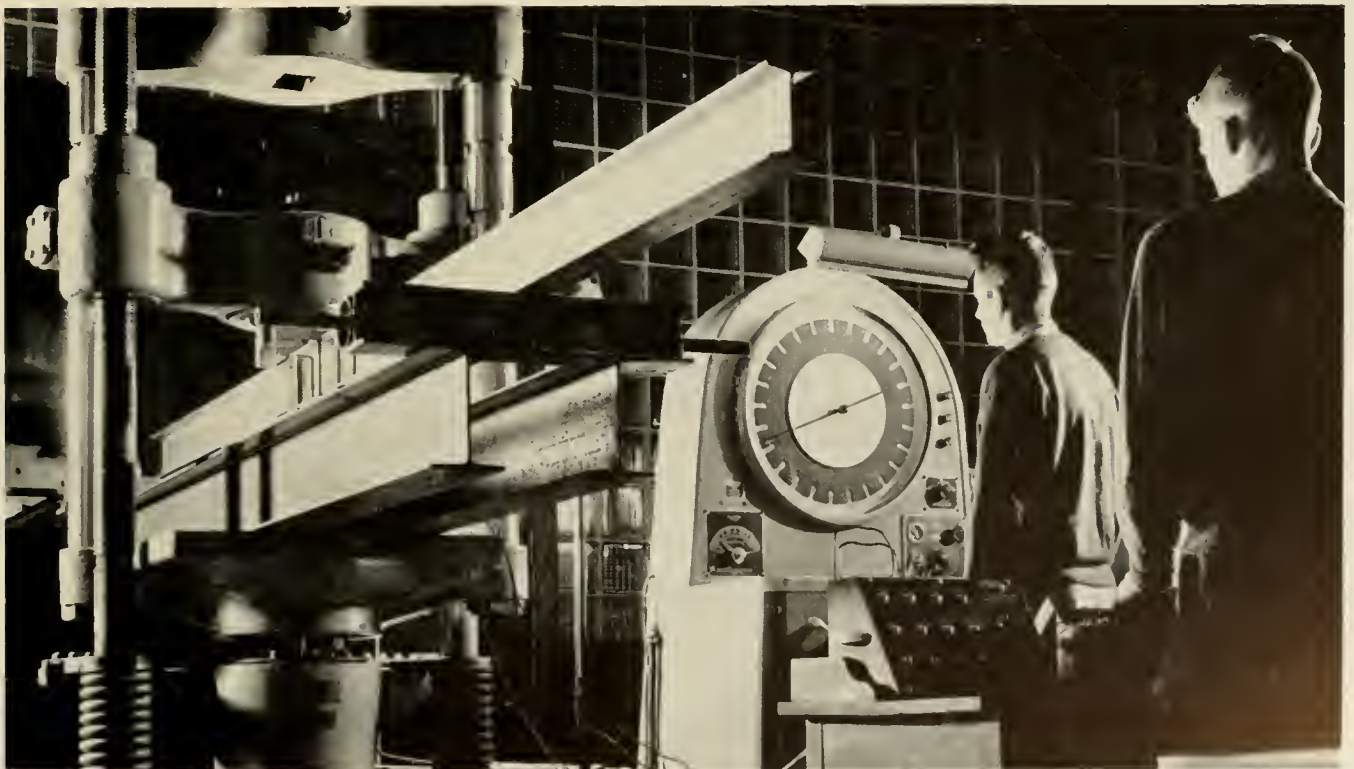

SCHOOL OF ENGINEERING

Attuned to the rapid industrial development in North Carolina, the School of Engineering is an effective contributor through its modern educational program and research activities. In addition to its seven accredited undergraduate curricula, the School of Engineering also provides courses of study leading to the Master, Master of Science, and Doctor of Philosophy degrees. These curricula and outstanding research departments provide educational facilities for students who seek an opportunity to be a part of the industrial and scientific growth of the State.

Lowering the Boom!!

## *Engineers' Council*

JOHN R. COMBS  
*President*

LONNIE A. GRANT  
*Vice President*

WALTER C. THOMAS  
*Secretary*

WILLIAM D. WILKERSON  
*Treasurer*

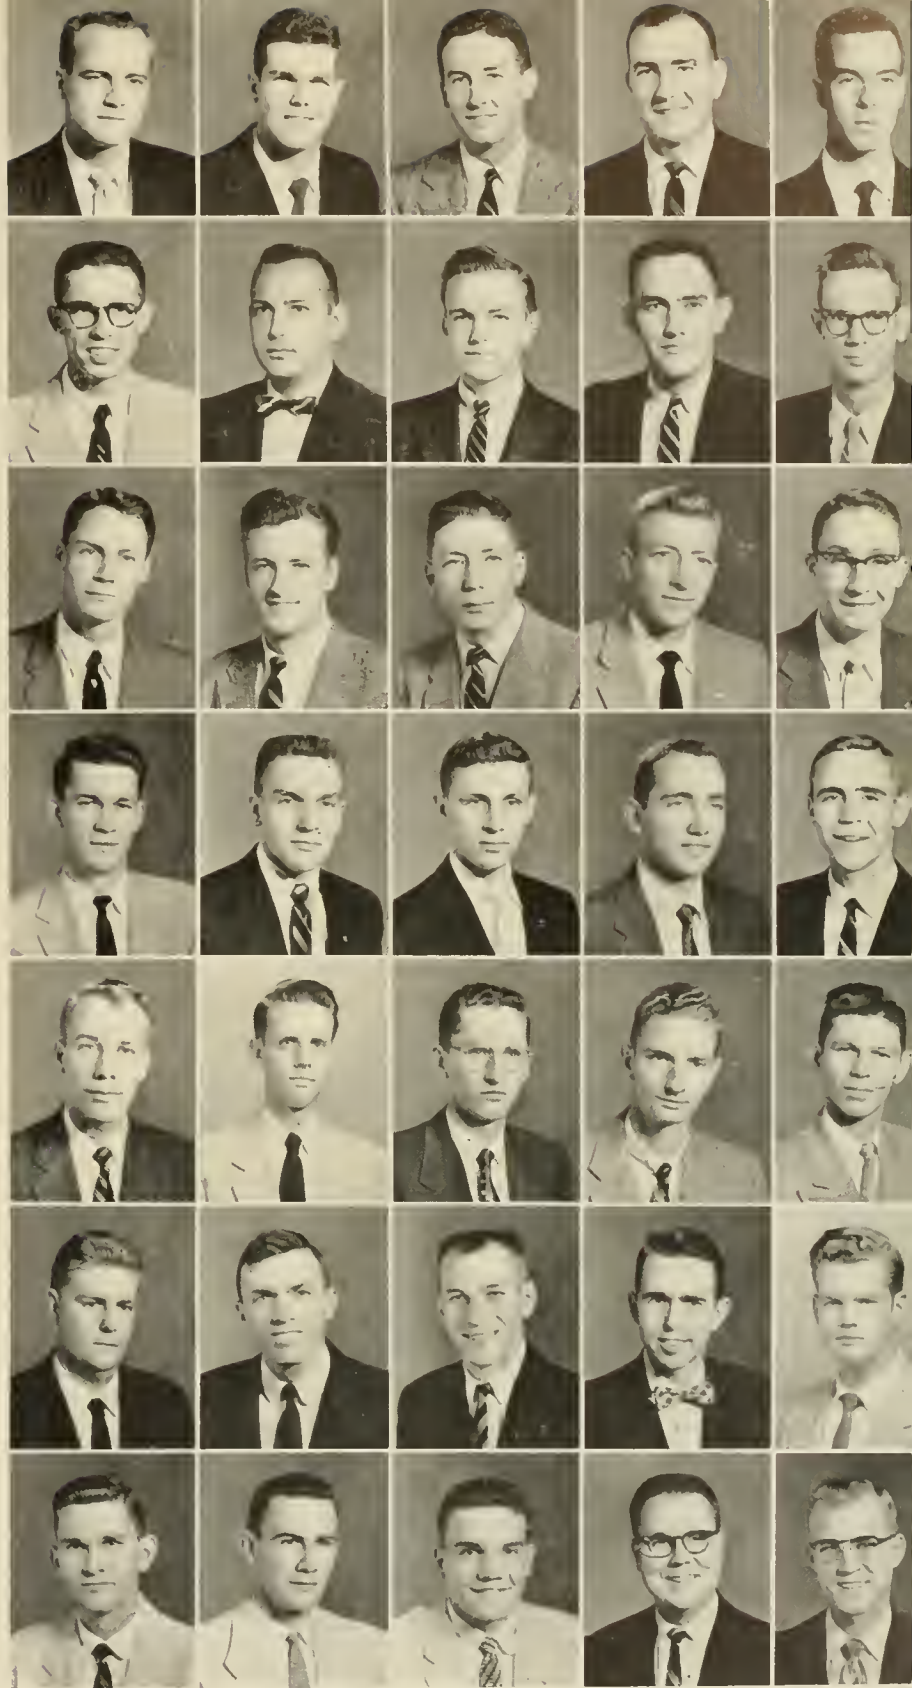

The Engineers' Council is composed of elected representatives of the various engineering societies on the campus. The primary function of this group is to coordinate the activities of the engineering societies represented.

Each year the Engineers' Council sponsors the Engineers' Exposition. It is also responsible for directing the publication of the *Southern Engineer*.

Another outstanding event sponsored by the Council is the knighting of outstanding engineering students into the Order of St. Patrick. The outstanding senior engineering student is recognized and given a gift by the Council.

Scholarship is encouraged at the Freshman level by selecting the two outstanding Freshmen from each department as Companions of St. Patrick.

## *American Society of Mechanical Engineering*

The Student Branch of A. S. M. E. offers members in Mechanical Engineering an opportunity to develop finesse in leadership, administration, and public speaking. A. S. M. E. brings many interesting speakers to the campus to stimulate professional interest among its members. Its programs include inspection trips, social outings, joint meetings with neighboring colleges, sponsoring speakers of national prominence, and local competition for prizes.

QUINLIVAN

The primary function of the student branch of the American Institute of Electrical Engineers is to promote professional interest in this field and to develop latent abilities of its members.

The student branch of the Institute of Radio Engineers aims to promote fellowship among students interested in communications. Interesting speakers from the radio industry are brought to the campus by the organization.

## *American Society of Civil Engineers*

The object of this society is to afford an opportunity for closer acquaintance among the students in Civil Engineering at N. C. State College, to increase interest in engineering, to foster a true professional knowledge and spirit among students, and to co-operate with the professional and academic Civil Engineering World.

Meetings are held once a month and include addresses by professional engineers, films on engineering projects and construction, student papers presented before the chapter, social affairs, and business meetings. The chapter publishes its own monthly paper, *On the Level*.

KEYT

The primary function of the student chapter of the American Institute of Industrial Engineers is to foster among its members a strong bond of fellowship and achievement. Professional interest, current problems, coordination of departmental activities, and development of character and leadership are other high objectives.

Bi-monthly meetings include guest speakers from the industrial field, films on engineering problems and solutions, student papers, A.I.I.E. business meetings and social affairs.

The high point of the year's activity comes in the spring with the chapter's exhibit for the Engineer's Fair.

JOHN FREEMAN . . . . . *Secretary*

FRANK ELLIOTT . . . . . *Treasurer*

Keramos, the national professional Ceramic Engineering Fraternity, was founded in 1902 at Ohio State University, and is the oldest professional engineering fraternity in the world. While the organization is strictly professional in nature, the requirements for membership are as high as most of the honorary societies and it permits the wearing of the key by honor students. Membership is offered only to students in the Department of Ceramics or Ceramic Engineering who have a good scholastic record, a good character record and who give promise of making good in industry. The principal object of the fraternity is to promote and emphasize mental achievement and to promote interest in ceramic art, technology, and engineering.

# American Society of Heating and Ventilating Engineers

The objectives of ASHVE are as follows: to supplement the student's classroom work and his understanding of the problems of air conditioning and related industries, primarily by securing qualified speakers; to provide a medium of exchange of ideas and interests by the presentation of student papers; to focus the attention of the air conditioning industry, particularly that of North Carolina, on North Carolina State College as a progressive institution and graduating engineers for heating and air conditioning work.

## PI TAU SIGMA

Membership in Pi Tau Sigma is the highest honor that can be obtained by a mechanical engineering student in his field. He must maintain a very high scholastic average in order to be eligible for membership, but this is by no means the only requirement. Before a student is selected for membership in Pi Tau Sigma, he must also be rated on social adaptability, honesty, personal cleanliness, neatness, and soundness of principles and morals. If, after all these things have been considered, a man is deemed worthy of the honor, he is invited to join Pi Tau Sigma. This is an honor which all men would be proud to claim as theirs.

SCHOOL OF TEXTILES

With new and improved technology in the Textile Industry, there comes a demand for men with technical training to meet and solve its problems. It is the main objective of the School of Textiles to provide the training in Textiles which, coupled with practical experience following graduation, equips young men to assume positions of real responsibility in the industry.

A fully equipped building and a well-trained and experienced teaching staff assure us that the quality of training now being offered is on a par with the demands of the industry.

FISHER

# Tompkins Textile Council

## OFFICERS

WILLIAM S. FISHER..... *President*

RICHARD GOLDENBURG..... *Vice President*

JOHN ARNOLD..... *Secretary*

DONALD ROSENBAUM..... *Treasurer*

The Tompkins Textile Council attempts, through bi-monthly meetings, to further student interest in textiles and to bring the student body and faculty closer together through mutual respect and friendship.

The social highlight of the year is the annual Lint Dodgers' Ball, which the council sponsors for the entire Textile School.

Another highlight of the year is the Textile Open House, which gives the people of the state a chance to see what the Textile School is doing. This year's Open House featured a fashion show displaying various textile fabrics.

## Sigma Tau Sigma

A local textile honor fraternity, Sigma Tau Sigma strives to instill in textile students a desire for higher scholastic attainments. An incentive toward this goal is the Sigma Tau Sigma Scholarship Cup that is presented each year to the Senior in textiles with the highest scholastic average. The Greek letters composing the name of the fraternity represent the words, Society of Textile Scholarship.

Phi Psi Fraternity is a professional textile fraternity, the objects and aims being: first, to promote good fellowship among men of textile schools and the textile industry; second, to encourage a high standard of textile work; third, to assist by every honorable means the advancement of its members.

Eta Chapter at North Carolina State is the largest chapter in the fraternity, in parallel with the largest textile school in the world. During 1949-1950, the chapter took part in arranging a display of student work for the national Phi Psi convention, and conferred honorary degrees upon two outstanding men in the textile industry. Social activities of the group include the annual banquet, at which time a cup will be awarded to the Man of the Year in the Textile Industry.

# DELTA KAPPA PHI

Delta Kappa Phi is the oldest professional textile fraternity in America, having been founded in 1899 at the Philadelphia Textile Institute. Started by a nucleus of seventeen members, Kappa Chapter was instituted on May 14, 1948, at State College. The fraternity holds an annual convention each year. The chapter here at State College strives to promote activities of interest to the Textile School.

# ARMY...

# Air Force

# ARMY

The Army ROTC has as its purpose, the training of students for positions of leadership in the Army in time of national emergency. The successful completion of a four year Army ROTC course leads to a commission as a second lieutenant in the Army reserve. In the classroom, emphasis is placed on giving the prospective officer a general background knowledge of military subjects and activities essential to all of the Army's fifteen arms and services. Maximum effort is made to arouse the student's interest through the use of weapons, illustrations, training films, practical exercises and models. Drill and Exercise of Command facilitate development of those essential characteristics of leadership such as self-confidence, initiative, loyalty, and the ability to think clearly, make wise decisions and inspire others to work for the success of any endeavor.

## SCABBARD AND BLADE

Scabbard and Blade is a national honorary society and was founded in 1905. The membership consists of outstanding ROTC advanced course officers. The purpose of the organization is to increase efficiency, promote good fellowship, and raise the standards of military training in ROTC units at American colleges and universities. At the present time there are nearly one

hundred chapters in the United States. The local chapter is known officially as G-3. There are approximately forty-five members at all times in the State College society. The activities in which members of G-3 were engaged during the past school year include the formal banquet for new members and the co-sponsorship of the annual Military Ball in March.

## PERSHING RIFLES

The Pershing Rifles is a national honorary military society formed for the purpose of promoting high quality military training and leadership in ROTC Units of the colleges and universities of the United States. The National Society of Pershing Rifles is organized into companies and regimental areas. The N. C. State College Chapter is Company L of the 4th Regiment.

The Pershing Rifle membership is composed of cadets who prove themselves superior in leadership, academics, and military bearing as members of the Cadet Corps. The activities of the organization are: drill and parade exhibitions, demonstrations for the Regimental and National Drill meets, and participation in the Annual National Convention of Pershing Rifles.

## ARNOLD AIR SOCIETY

The Arnold Air Society, named in memory of General "Hap" Arnold, has as its members advanced AF ROTC students who have a high academic standing and a high degree of interest in the Air Force. The organization is national in scope and is America's fastest growing collegiate society.

State College's James J. England Squadron of the Arnold Air Society furthers a fraternal spirit among the drill field leaders through formal and informal social events, educational programs, field trips, and a coordinated program with the cadre officers of the detachment.

The Arnold Air Society's motto, "The warrior who cultivates his mind, polishes his arms," is the spirit of the organization.

THE COACHES

# FOOTBALL

Thus the second year of rebuilding the football team began with the team in high spirits and traveling to the great sunny state of Florida. The heat and the rain were most unbearable. The Wolfpack had a hard time getting started with their offense, and through no fault of theirs, Florida State came out of the game on the winning end. This might have been a bad morale factor for any team except State, but they only had their spirits aroused and came back to West Raleigh with the idea of driving Duke into the ground. This was a hard thing to do against a great team like Duke and with the breaks going for Duke there was no other end except the 33-7 defeat we suffered at the hands of the Blue Devils.

State, still looking for that first win which would start them rolling to a successful season fought Carolina to a 25-18 score with the Tar Heels the victor. The game being played throughout in the rain was the first one to be played in Riddick Stadium between the two schools in many a year. State played a wonderful game and might have won except for a pass interception and a penalty that proved too costly in the fading minutes of the game.

However, the Wake Forest tussel was a horse of a different color because the Wolfpack played one of the best games in several seasons but again in the fading minutes the Deacons came back to tie the

score. This was the beginning of a new era for the boys from West Raleigh campus because they roared back the next week and put Villanova to shame beating them 34-13 on their home ground. The same was true with the tussel at Greenville, South Carolina with Furman. The "new" Wolfpack lead the entire game for a 33-7 victory.

The rains came again and the "Pack" traveled or should we say swam to Boston for their game with Boston University. Being well accustomed to wet weather, this was another victory in favor of State. To be exact it was a smashing victory of 40-13. Having a 3-3-1 record, they traveled to Bluefield, West Virginia and ran into a stone wall which V.P.I. threw up against them and went down a 34-26 defeat. Although the Wolfpack led most of the game, they couldn't stop the offensive of V.P.I. and had to yield to them.

State scores against Carolina

We tried—but Carolina won

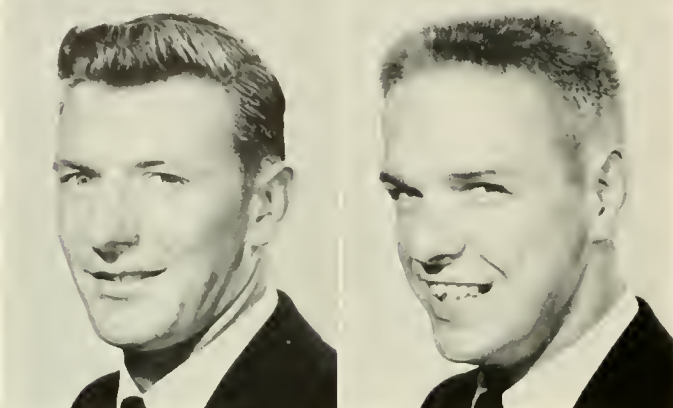

This was no ego killer because the State College men came back to Raleigh and won the Homecoming game against William and Mary 28-21. The Wolfpack was well on its way to the most successful season in many years and played a great game with West Virginia for the first half, but the loss of Dick Christy, who was ill was felt in the second half. The strong Mountaineers slogged their way through a determined eleven to win 27-7.

Now the season is all over, and Earle Edwards has been

Once more and no score.

signed to a new contract. North Carolina State College is planning on producing one of the finest football teams in the United States. Coach Edwards has done a marvelous job and can't be thanked enough. However, the AGROMECK Staff would like to take this opportunity to say "Well Done" to

Coach Earle Edwards and his staff for putting State College on the map in the football world. We wish him even more success next year and hope that come next New Years Day, North Carolina State College will be represented in the Orange Bowl. Good Luck. . . .

# BASKETBALL

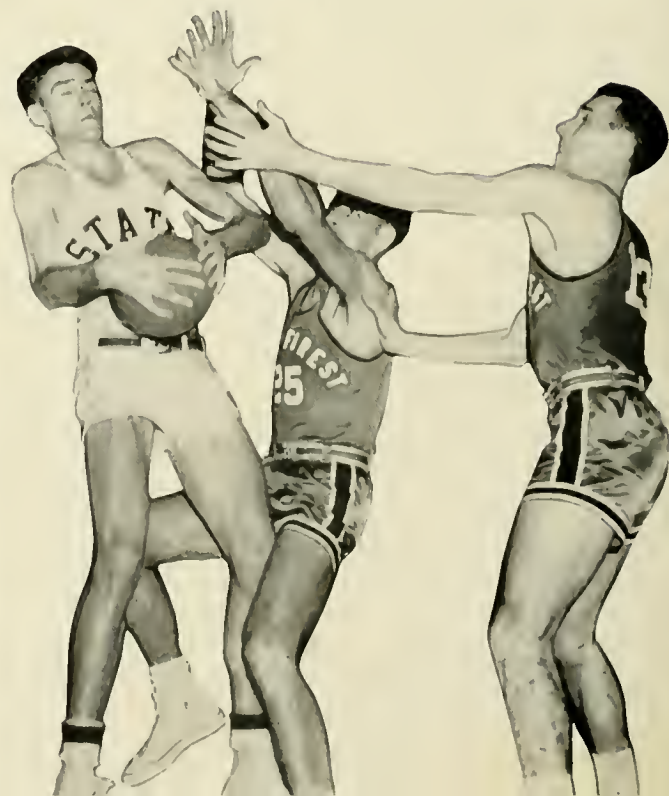

Well another great season for the North Carolina State College basketball team was completed this year with the team having its best record since 1948. When a team wins 21 and loses only 3 games such as State has done this year, is bound to be a great team.

The 1955-56 season was quite a thriller for the members of the Big Four. It seems that no one team had the upper hand, unless it was State. Each school was usually the winner if it played on its own court and there were very few exceptions. As for the final Atlantic Coast Conference standings, State was tied with Carolina for the lead, with Wake Forest and Duke not far behind. So you can see what a tough year State had in its own backyard with its sister school that is also fast becoming a basketball power.

The Victorious Pack

Two Baptist on Shavlik

POND  
DICKMAN

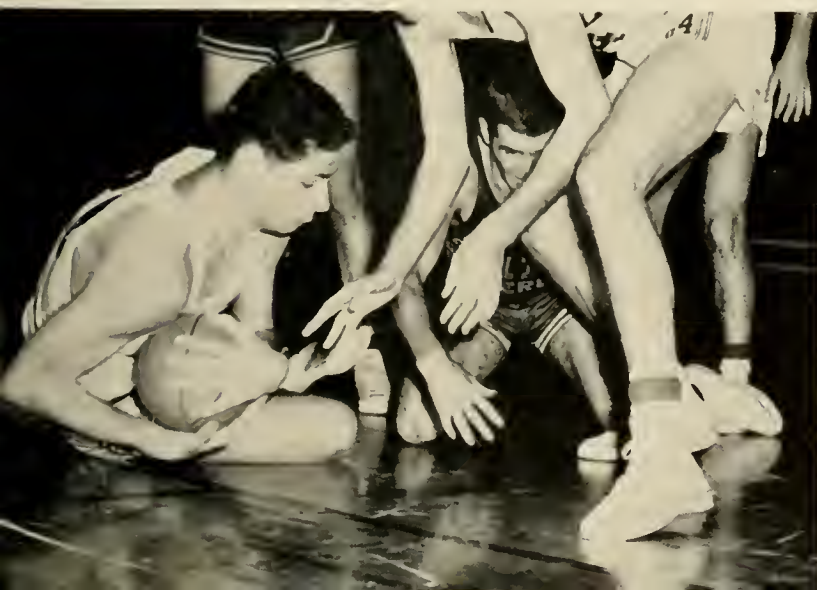

SEITZ  
KRESSLER

The Wolfpack was ranked in the top ten teams of the country all season and most of the time within the top five. This is a story in itself in telling how good the wolfpack was this year.

"The Carolina Court Champs," as they were recently called in a twenty minute film by Paramount, was not as strong on the bench as they have been in the past years. Everett Case was worried at the beginning of the year as to who would be his best reserve, but he didn't have to wait long because Lon Dickman came through with flying colors and won himself a starting berth. Lou who was always a hussler proved to be a great player along with the rest of the "Cool" men from West Raleigh.

It's Mine, All Mine

Ron Shavlik who was probably the greatest player in the history of State College basketball ended the year with a new scoring record to his credit and many more that would take pages to write. He was one player that was a real credit to the game with his basketball ability and the great sportsmanship which he constantly displayed. It will be a long time before another player like Shavlik will shoot at the backboards in the Coliseum. Ron had an important side-kick that Everett Case said was the fastest man he had ever coached. This one as you well know was Vic "Beno" Molodet. There was not a better combination than these two greats and it is doubtful if any team in the world had two better players.

Where will it fall

"The Big Five"

The Wolfpack will lose four of the starting five as a result of graduation. This is going to mean a lot of work for Case and put a big burden on John Maglio who will be the All-American candidate for State College next year.

Surrounded

The AGROMECK Staff would like to congratulate the entire basketball team along with the coaches for representing North Carolina State College in the basketball world. We wish the team luck next year and with Everett Case at the controls there could only be one end result, a great basketball team. . . .

# MONOGRAM CLUB

The purposes of the Monogram Club are to recognize through a student organization those men who have earned a monogram, in accordance with the regulations at N. C. State College Athletic Council, in competitive athletics at N. C. State College; to foster good fellowship among monogram winners; to promote a high standard of intercollegiate athletics and the spirit in which they are conducted; to encourage ideals of good sportsmanship among athletes and spectators; and to function as a student organization in the best interest of North Carolina State College.

Our final stop is the Coastal Plain where wide waters and slowly rising land are both Coastal North Carolina. No one has better described this section than Raleigh's Jonathan Daniels:

"And sometimes it is most beautiful when wet flowering swamps and the rivers in which old trees stand up to their knees slip up between the long rows in the cultivated fields. Occasionally you can see a fish house by a tobacco barn, and that is Coastal North Carolina complete."

As agriculture plays an ever dominant role in the lives of these quiet people so, too, does the School of Agriculture, which with its many technological advances gives them the necessary help and assistance to better their crops.

North Carolina State College has progressed since its beginning in 1889 to become one of the greatest institutions of higher learning in the United States of America. In so doing it has made its weight felt by all the citizens of this great state.

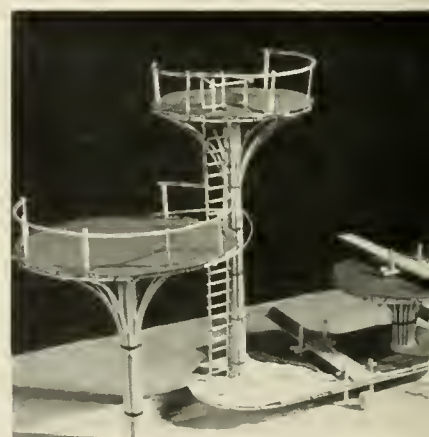

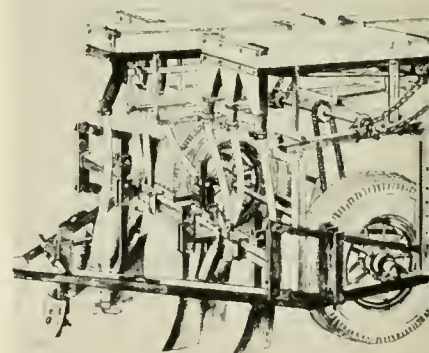

The School of Agriculture, since its founding has progressed to become one of the best known schools in its field, and through its untiring efforts, on the part of both the students and the faculty, has improved the status of the farmer throughout this great state. Agriculture is basic to North Carolina's whole economy. Today changes are taking place in the state's agriculture which will have a profound effect on the lives of

all of our people. The School of Agriculture in all three of its main divisions—Teaching, Research and Extension — is dedicated to a program of training men and women to assume leadership in these changing times. Various curricula have been developed which will enable students to choose the field of work in which they are most interested and best qualified to serve.

Progress has also been shown by another school on campus, namely the school of design. As the architecture of this modern age indicates, people are slowly acquiring a taste for the modernistic type design and the School of Design has more than amply done its part toward contributing to the states progress along this line.

The Elements of Agriculture

# SCHOOL OF AGRICULTURE

Agriculture is basic in North Carolina's welfare, physical and economic. Changes are occurring constantly to affect the lives of all our people. Many of these changes in agricultural science originated at State College, in the labs, in the greenhouses; and many of them were made by men trained at State. From the School of Agriculture go men trained in various fields in agriculture, to carry their knowledge to the farms and to the schools.

Alpha Zeta was founded at Columbus, Ohio on November 4, 1897. The North Carolina Chapter was the eighth of forty-five chapters and was chartered in 1904. Its aims are perhaps best expressed in the words of its founders: "Alpha Zeta was established neither as an honorary nor as a social fraternity, but as a professional fraternity whose membership shall be combined of the qualities of high scholarship, fine fellowship, and sound character." These are the vital qualities of real leadership, and it was the actual potential leadership in the field of agriculture for which the fraternity was established to encourage and develop.

## AMERICAN SOCIETY OF AGRONOMY

The aims of the Agronomy Society are to improve relationships between faculty and students, to stimulate interest in the field of Agronomy, and to aid in carrying on student activities. The Society sponsors a de-

partmental exhibit at the North Carolina State Fair in the fall, an election banquet in the winter and an over-the-state field trip in the spring.

Membership of the Ag Club consists of the students in the school of agriculture and the department of agricultural education in the school of education.

The Ag Club was organized in 1917 to promote leadership in agriculture and campus activities, to provide recreational, educational, and entertainment programs for its members, and to promote school spirit. The Club strives to accomplish these objectives through a variety of activities. At the weekly meetings members enjoy informative talks, illustrated lectures, educational movies, and entertaining programs. It also sponsors the Student's Ag Fair, the Barnwarming, Ag School Day, and has it's own outstanding publication, *The N. C. State Agriculturist*.

The purpose of the Animal Industry Club is to better acquaint students interested in Animal Industry with members of the A. I. Staff and the work which is being done. It encourages A. I. students to participate in judging contests, puts on the A. I. exhibit at the Ag Fair, and publishes *Meat and Milk the Scientific Way* annually.

The club also affords its members with an opportunity to better themselves by (1) practice in Parliamentary Law; (2) public speaking and appearance; (3) participation in round table discussions of professional, social, civic, and general questions; (4) organization, presentation, and discussion of papers or informal talks; (5) practice in organizing and carrying out projects involving initiative and responsibility; (6) listening to outside speakers or witnessing motion pictures and demonstrations.

SCHOOL OF DESIGN

The School of Design, formed in the summer of 1948, is devoted to the development of an organic and indigenous architecture and its accompanying landscape architecture and the related arts to meet the needs and conditions of the southern regions.

As the only Department of Architecture in the most progressive State in the South and the only Department of Landscape Architecture in the region, the opportunities are unlimited for the School's graduates to contribute to the solution of problems in building design, planning and general construction.

In this, the 1956 AGROMECK, we have tried to give to you a reflection of student life as lived at our Alma Mater, North Carolina State College. Due to the speed-up program, we have been forced to hurry our date of publication so that the usual chaos out of which a college annual is born has become even more pronounced. Consequently, there are many things in this college yearbook which could be vastly improved under more normal conditions; there are some elements, such as a full account of winter athletics, which we have been forced to omit. There are other shortcomings, but none of them have been established without the sincerest and most arduous effort to avoid them. But it is not our purpose to build excuses for something that has been so close to our hearts during the past months. We sincerely hope that each student will find the contents herein to his liking.

## *The Technician*

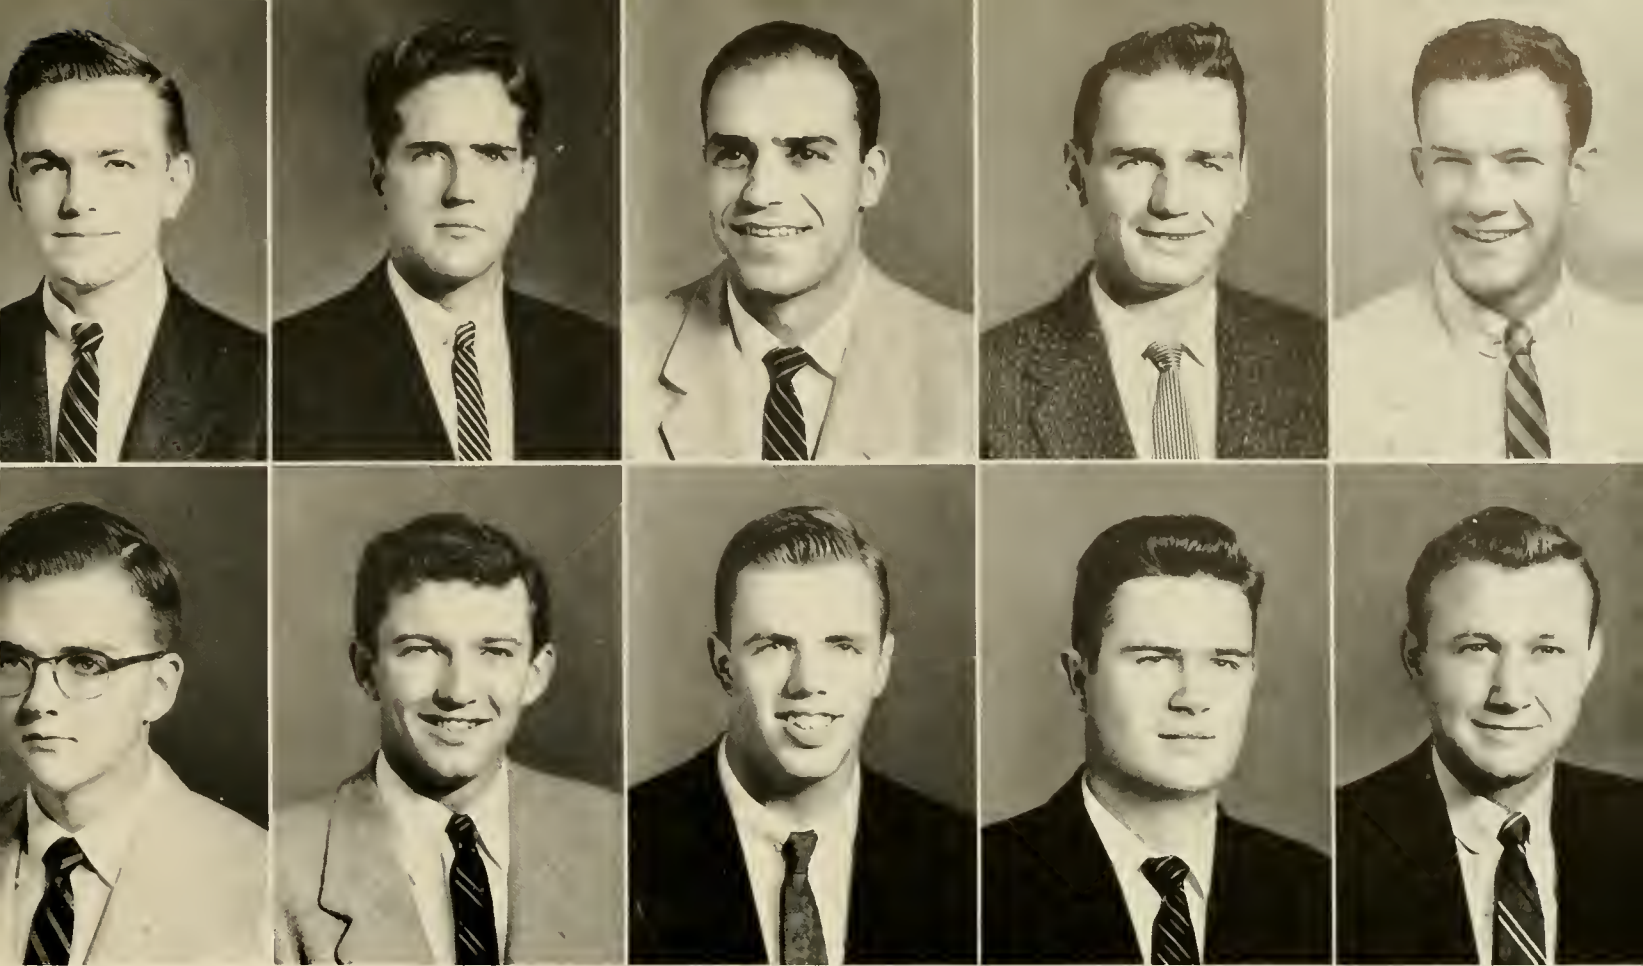

The paper was rolled into the typewriter and two hands began beating away on the keys. The pictures in the mind of the writer were transformed into tangible words on the paper. When the writer was through, he jerked the paper out of the typewriter, hastily scrawled "30" under the story and handed it to the news editor in the slot of the copy desk. The story was edited, a headline was written, and the page was taken to the

print shop. There, the linotype operator pecked away at the keyboard, setting the story in type. When he was finished, the story was proofed and checked for mistakes, then it was matched with the proper headline and placed into the proper page form. This was done with all the stories, the form was locked up and the *Technician* was ready to roll.

# SOUTHERN ENGINEER

The *Southern Engineer*, sponsored by the Engineer's Council, is published by the students of the School of Engineering and appears six times during the school year. The magazine has the dual purpose of disseminating information and affording students an opportunity to develop writing techniques. It also helps inform the engineering public of the South of the standards, opportunities, and progress of the School of Engineering.

## TEXTILE FORUM

The *Textile Forum* is the publication of the School of Textiles. The staff is made up entirely of students; this year with Richard Goldenberg in the Editor's slot, and Lawrence Belkin the man who handles finances.

Each year the *Textile Forum* publishes a brochure featuring a picture of each rising senior and a write-up of his extracurricular activities.

## THE PINETUM

The *Pinetum* is the annual publication of the Forestry Club. For the past 21 years the *Pinetum* has grown from its small beginning to an issue of over 100 pages of articles, pictures and reports. All of the events and happenings in the School of Forestry are recorded in the *Pinetum*.

A large part of the *Pinetum* is for the alumni who have graduated in forestry at State College. In this section an alumni can find out where all of the members of his graduating class are and what they are doing.

The *Pinetum* is distributed to all forestry students at the college, to other forestry schools, and to alumni who request it.

## OFFICERS

BOB LANE .....	..... <i>President</i>
HUNTER BLACKWELL.....	..... <i>Vice President</i>
TED COLWELL.....	..... <i>Secretary</i>
BILL LIPPARD.....	..... <i>Treasurer</i>
ED LACKEY.....	..... <i>Social Director</i>

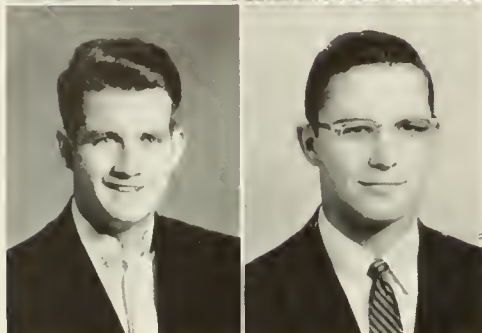

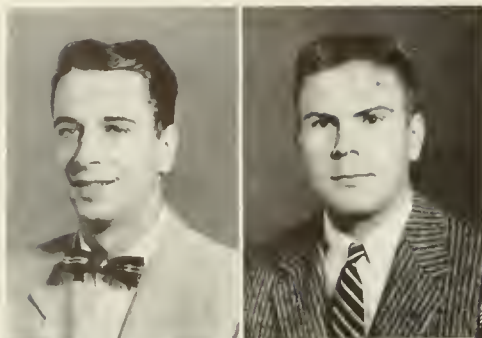

The North Carolina State Veterans', organized in October, 1953, has been actively associated with student programs, functions and social events from the first day of its birth. Membership of the group is presently over 550 veterans and each new semester swells the rolls. Common interest in yearly planned programs including such items as Veteran Association sponsored dances, stag socials, school projects and inter-group student activities has done much to create a feeling of friendship within the Association. An active participation

in every student problem of major importance has contributed much to make the name of the Veterans' Association well known on this campus.

As stated in the constitution of the North Carolina State Veterans' Association—"For God and country, we associate ourselves together . . . to perpetuate in peace those ideals for which we fought in war . . ."—and this is the only country in the world where those ideals can be realized.

# STUDENT GOVERNMENT

Since the student government was first formed in 1921, at State College, it has had "the purpose of forming a more perfect community of scholars, affording opportunity for training in American citizenship, and those securing the blessings of liberty, learning and integrity . . ." for those of the college community. During the period since 1921 many revisions have been made for the Student Government, but the central theme of student participation has not been changed.

The Student Government works very similar to any government and when you are enrolled in State College, you become a member of this government and are subject to the rules that govern State College. The organization has the responsibility of maintaining the spirit and interest that a student may have and to raise these things with the student. The interest of the students are also the interests of the student government.

The legislature is a cross-section of the Student Body and represents each professional school, and each class is represented therein. As was previously stated, this government is similar to others in the democratic world and the elections are held each spring for the officers. These men who are chosen to lead the student body are directly from the student body itself. Being President of the Student Government is probably the highest office a student can hold at North Carolina State College.

This past year the Student Government has really worked hard for the welfare of the student. They have arranged it so that it is now possible to use another student's ticket book for your date. They had the holidays changed at Christmas time so we could get more than a few days off for Christmas. The plans for the paving of the parking lots and the new campus lighting system were more things that the government has done. These are only the major things that have been done and it would take a mile of paper to tell all the little things that were accomplished.

## MUSIC DEPARTMENT

The Music Department is under the direction of Christian D. Kutschinski, Conductor of the Band, Orchestra and Glee Club, and Herbert W. Fred, Associate Conductor of the Band.

The BAND presented a new halftime show at each of the home football games, and accompanied the team to Greenville, S. C. for the Furman game, besides participating in all the ROTC parades and reviews throughout the year, many civic affairs, and presented three formal concerts in addition to the Commencement concert and processional music. The band furnished a small volunteer unit under the direction of Frank Strauss which furnished popular music at many of the basketball games. The ORCHESTRA presented three symphony concerts in Pullen Hall, one of which was an all-Mozart program commemorating the 200th anniversary year of Mozart's birth. The GLEE CLUB gave a formal concert in November, sang a Christmas program over Station WTVD-TV in Durham in December, another TV program (WUNC-TV) in February, and sang at the annual faculty banquet in March.

# Union

The purposes of the College Union of North Carolina State College are to enrich the student's life through teaching him social and recreational skills, to expose the student to good standards of art and behavior, to encourage him to have pride in his dormitory, fraternity and school, and to bring the student and faculty into a closer relationship outside the classroom. The Union also tries to give the student an opportunity to try to satisfy the need for recognition, acceptance, new experience, and self expression. This group endeavors to teach the student the elements of organizing community events, which lead to the making of good citizens. Finally, the whole Union program attempts to develop and encourage interesting programs to make the student feel "at home away from home."

## THE I D C

Every student who lives in a dormitory at N. C. State College is a member of this organization. Each dormitory elects annually a president, vice president and a secretary from its members. The presidents and vice presidents of all the dorms form the Inter-Dormitory Council.

The purpose of the Inter-Dormitory Council is to plan and direct athletic, social and recreational activities for all the dormitory members. The Council accomplishes these functions through the appointment of social and athletic directors in each dormitory. These appointed directors work under the supervision of an I.D.C. Social Director and an I.D.C. Athletic Director. In addition to these officers, there is also an appointed Publicity Director whose job it is to publicize dormitory events and to stimulate interest in the various events of the year.

## THE GOLDEN CHAIN

### *Senior Honorary*

Golden Chain, Senior Honorary Society, was organized in May, 1926. The purpose of the society is to promote better citizenship and leadership on the campus. In May each year, twelve Juniors, considered the outstanding members of their class, are added to the Chain by a tapping ceremony.

A row of four black and white headshots of men. From left to right: a young man with dark hair and a mustache; a young man with dark hair; a man with glasses and a mustache; and a young man with dark hair. All are wearing suits and ties.

A row of four black and white portraits of young men, likely from a yearbook. Each man is wearing a suit and tie. The first man on the left has dark, wavy hair and is wearing a light-colored suit. The second man has short, dark hair and is wearing a dark suit with a bow tie. The third man has short, dark hair and is wearing a dark suit. The fourth man has dark, wavy hair and is wearing a dark suit. The portraits are set against a plain, light background.

A row of four black and white headshots of men. From left to right: a man with dark hair in a suit and tie; a man with dark hair, smiling, in a suit and tie; a man with light hair, smiling, in a suit and tie; and a man with dark hair in a suit and tie.

A row of four black and white headshots of young men, likely students, dressed in formal suits and ties. They are arranged horizontally from left to right. The first man has short, dark hair and a serious expression. The second man has short, dark hair and a neutral expression. The third man has short, dark hair and a slight smile. The fourth man has short, dark hair and is wearing glasses, with a slight smile.

A row of four black and white headshots of young men, likely students, dressed in formal suits and ties. They are arranged horizontally. The first man on the left has short, light-colored hair and is wearing a light-colored suit. The second man has dark hair and is wearing a dark suit. The third man has short, dark hair and is wearing a dark suit with a striped tie. The fourth man has short, dark hair and is wearing a dark suit.

A row of four black and white headshots of men. From left to right: the first man is older with thinning hair, wearing a light suit and tie; the second man is middle-aged with dark hair, wearing a dark suit and a striped tie; the third man is younger with dark hair, wearing a dark suit and a striped tie; the fourth man is young with dark hair, wearing a light suit and a striped tie. All are smiling slightly.

Blue Key Honor Fraternity was founded at the University of Florida in October, 1924, to perpetuate the belief in God, to preserve the principles of good citizenship, and to promote the best interest of the students.

The fraternity recognizes outstanding qualities in character, scholarship, and service, placing equal emphasis upon leadership in student activities. Membership is composed of graduate and undergraduate students of all departments of American colleges and universities.

Each year Blue Key co-sponsors the Homecoming celebration. Annually, the fraternity presents the citizenship award to the senior who has distinguished himself as the foremost citizen of his class. In addition, Blue Key cooperates with other campus organizations in various activities to perpetuate a more meaningful campus life.

CLASS OF '59

## PHI ETA SIGMA

Membership in Phi Eta Sigma is opened to those Freshmen who make the equivalent of half A's and half B's and is considered the highest scholastic honor a Freshman can attain. Phi Eta Sigma's members are active for the latter half of their Freshman year and remain active during their Sophomore year. They strive to reward and promote an interest in high scholastic standards.

## STILL WIDE OPEN

### THE GATES OF OPPORTUNITY

Our American inventors and scientists, backed by our remarkable industrial know-how and skills, may seem to have produced today about everything it's possible to produce. Those with little faith in our country and its future would have us believe so.

But to American youth the gates of opportunity are wider open than ever before. Thousands of new and better ways of doing things, of new products and new developments, will be created by those who properly prepare themselves.

# THANKS!

To the following we would like to express our sincere thanks for the splendid cooperation and advice which was so essential for the make-up and completion of this 1956 AGROMECK: Mr. Price Coursey of Charlotte Engraving Company; Mr. Fay Smith of Smith Studios; Mrs. Marlene Thompson, Secretary of Publications Board; Dean Banks Talley; Mrs. Alice Shirley; Mr. C. J. Parker, Director of State Advertising Division; Miss Ann Lilley; Mr. Lindsey Whichard and Mr. Rudolph Pate, Chairman of Publications Board.

Without the help and advice of these persons we could not have put out a yearbook that we would be as proud of as we are this 1956 AGROMECK—so again, our thanks to each of you.

---

## FINANCIAL REPORT, 1956 AGROMECK

(As Some People Think! ?#\*!)
